Battery-Operated Semi Smart Toilet

7

Design

COMPACT, STREAMLINED ONE-PIECE INTELLIGENT TOILET
WITH INTEGRATED PERSONAL CLEANSING

Elegant & Modern

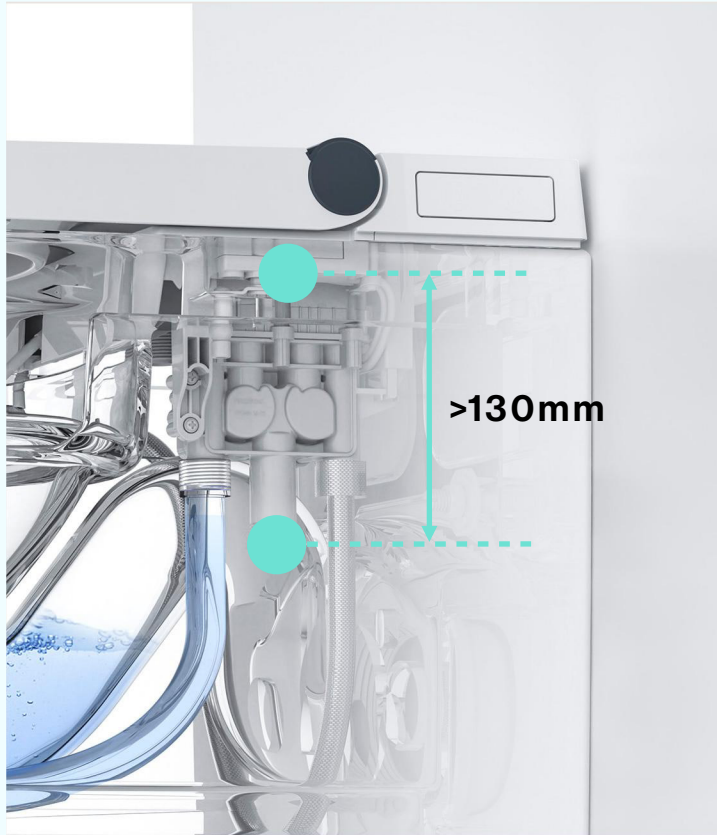

Water-saving, offers optional single flush of 4.8L and dual flush of 6/4.2L;

Dual Cleansing Technology

1ST siphonic flushing: remove the solid waste;

2ND siphonic flushing: remove the residual in the bowl and ceramic pipe.

Reliable Anti-backflow

Anti-siphon Design

Using normally open air gap anti-siphon design. When the smart toilet is in standby, a 130mm air gap is secured between the water supply and the toilet sewage to ensure isolation.

When the smart toilet generates negative pressure, the normally open air gap can always keep the water supply isolated from the sewage air, preventing the sewage from flowing back and ensuring water supply not polluted.

Foot Kick Flush

A simple kick activates the flush after use, offering added convenience—especially for men during toilet use.

Hands-free Flush

Auto Flushing

The smart toilets flush the toilet automatically.

Manual Control Knob

Adjust the flushing water volume, suitable for different users. Clockwise for rear wash, counterclockwise for front wash.

One-Touch Control Button

Press the button on the unit to activate the flushing function (full flush).

Battery-Operated

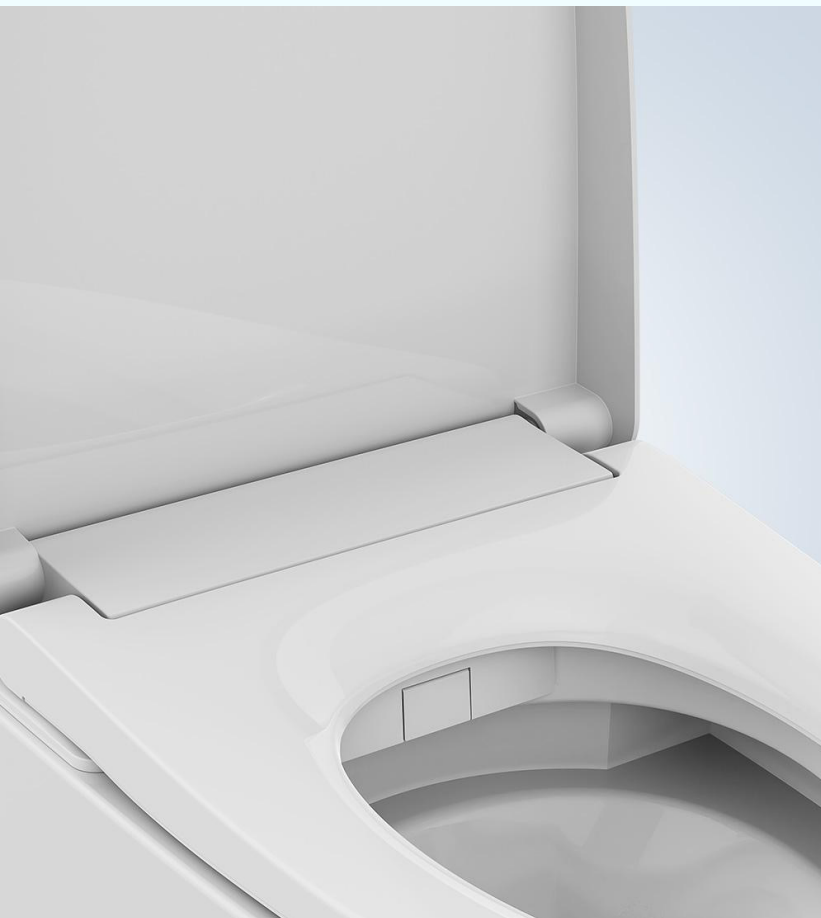

The battery is designed to last more than 8 months. When the battery is about to run out, the indicator light will flash and emit a "beep, beep, beep" sound.

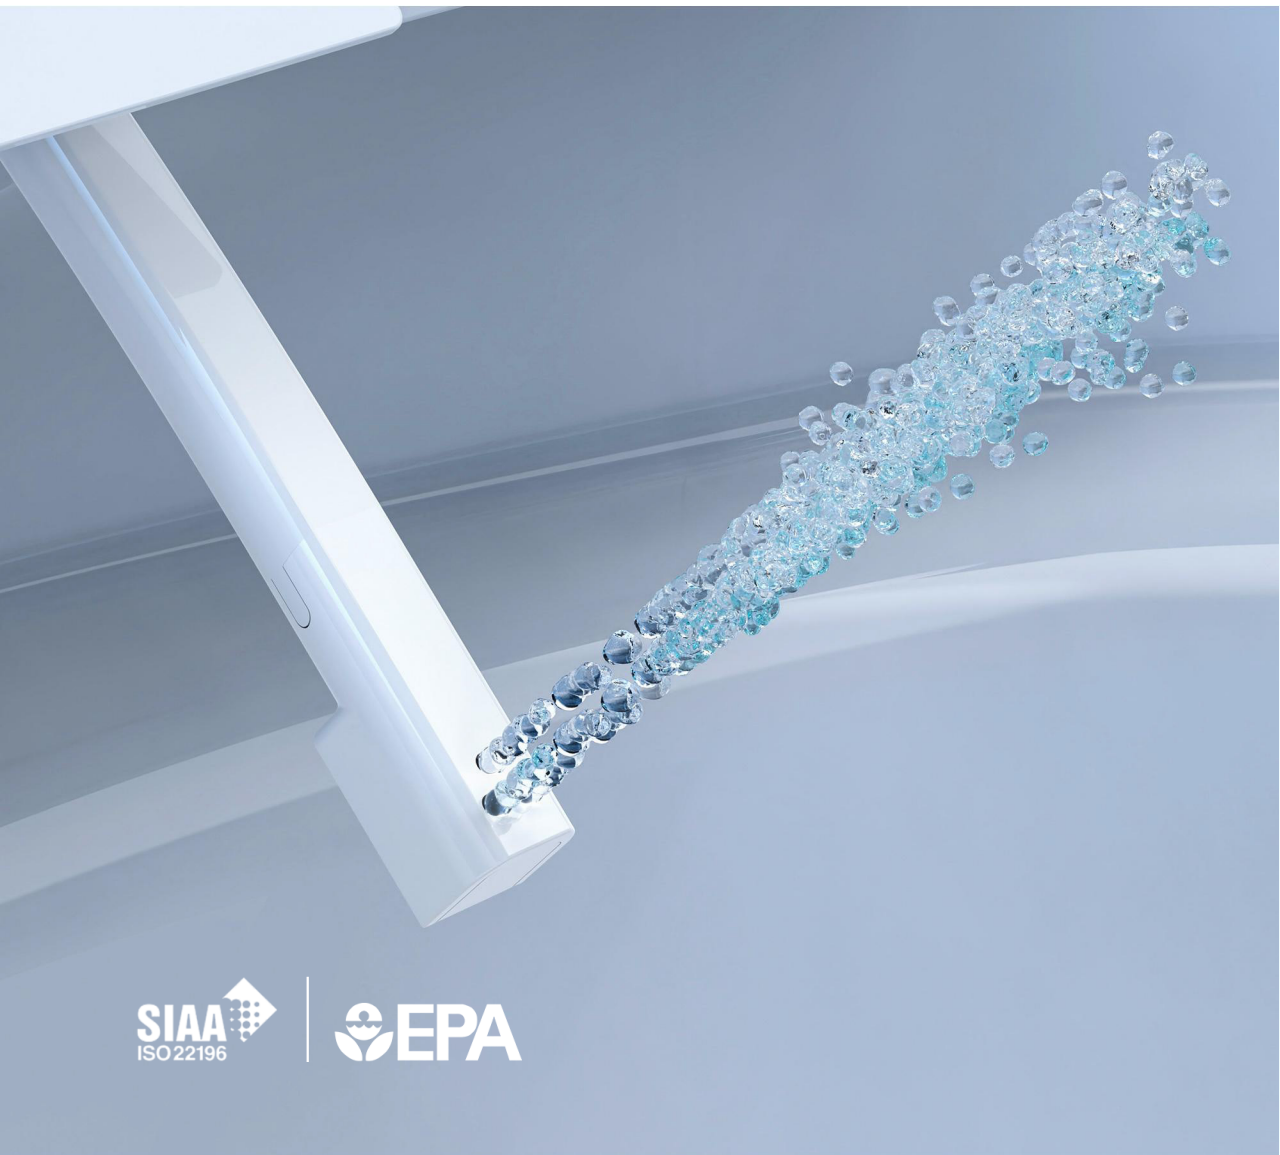

Bidet Seat

LEAVING USERS FEELING CLEAN AND REFRESHED

The Soft-close Seat & Cover

- ✓ Enjoy quiet in the bathroom, preventing slamming lid and fingers pinching.
- ✓ Endures rigorous testing with 50,000 life cycles for durability and reliability.

SIAA
ISO 22196

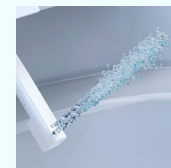

Double Spray Wand

Smart Wash

- ✓ Wide and strong wash
- ✓ Multiple cleaning modes

Multi-directional, multi-mode cleaning, feel different washing experience.

**Rear wash
(3 Holes)**

**Front wash
(4 Holes)**

*Rear and front wash function on different spray wands.

Self-cleaning Wand

Hygiene Ensured

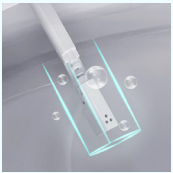

The wand is automatically cleaned in all directions, before and after each use. Maintains cleanliness at all times.

Self-cleaning

Anti-bacterial

Detachable
